Principal’s Report

Here we are in the final stages of another huge term where we have achieved so many wonderful successes. Our students have continually strived to achieve academic excellence in their learning. Teachers have set high standards and demanded a high level of respect. Olympics Day, Grade 1 Dinner and Disco, Year 2 Sleepover, Year 3 Echuca Camp, Year 4 Phillip Island Camp, excursions, incursions, literacy and numeracy week and many more engaging events have added to a high level of engagement, learning and enjoyment throughout the term at Laurimar Primary School.

As I write this newsletter from the Year 5 Camp at Warrnambool, I would like to commend our Year 5 and 6 students for their memorable camps experiences. In trying conditions, our dedicated staff and parent volunteer helpers have enabled the children to experience a rich and diverse camping experience. It is always very uplifting being a part of a dynamic and dedicated team who take time away from their own families to make this possible for all students in Years 1-6. On behalf of the entire school community, many thanks to all staff and parents for your tireless work and energy to make this possible.

New Kiss and Drop Zone from Term 4

Our Kiss and Drop zone on Painted Hills Road (outside the gym) is now operational. This zone is designed for parents to drop off students safely without needing to park and leave their vehicle. The zone is strictly 3 minutes. It is timely that the zone is beginning now, as the local Police have been in contact with our school and are patrolling the local roads before and after school to ensure safe driver and pedestrian behaviour; especially in terms of picking up and dropping off children. Given the number of near-misses and serious incidents around the streets adjoining our school grounds this is an important reminder to everyone to drive, ride and walk safely around our the school and our community.

When using the zone it is imperative that students have their school bags on their laps or in the passenger compartment of the vehicle. This allows students to safely leave the car without needing to access the boot. Any student or parent accessing their boot in the Kiss and Drop zone (where other vehicles are constantly pulling in and out in front and behind the car) is placing themselves and their children at great risk. This behaviour cannot occur.

Hopefully the Kiss and Drop zone also reduces some of the parking pressure in adjoining streets – a reminder that our Staff Car Park is strictly for staff use. Please make great use of this initiative and use it safely for the benefit of our students.
Principal’s Report

State Schools Spectacular
On what was deemed ‘Super Saturday’ for our school, Mrs Keenan and Ms Walsh led 20 students on a 3 day spectacular culminating in 2 live events at Hisense Arena on Saturday. I had the privilege of attending the matinee’ event and was simply wowed by the occasion. An incredible opportunity for all students to shine and strive in their particular discipline and the quality of the 3 hour performance was a sight to behold. Congratulations to all students, staff and parents involved in making this possible and it is something that we would love to continue in the coming years.

Diamond Creek Town Fair
Another feature of our ‘Super Saturday’ and showcasing our visual and creative Arts Program, was Laurimar Primary Schools Chinese Parade at the Diamond Creek Town Fair. The parade featured our newly created Chinese Dragon, backed by our students in full Chinese costume. A special thanks to our cultural committee and Arts Team for making the day possible and demonstrating to the community our deep commitment to arts, culture and the Chinese language.

Footy Day
One of the highlights on our school calendar is our school Footy Day held last Friday. The wet weather did not dampen the spirits of our students and staff as we all immersed in Footy maths games and activities, football skills in the rooms and under the cover way and our very own ‘Footy Show’ beamed live into all rooms from the Movie Studio. Many thanks to Mr Kearney and his band of student helpers for making this possible at short notice. The day culminated with our footy day parade where every student joined in the wonderful atmosphere. Congratulations to the PE team and all involved in the success of the day and thankyou to Julie and her team in the canteen for providing the 600 plus lunches.

Great fun and learning with Numeracy at LPS
As most people in the community are aware, I love Maths and all things number. Recently I was having a discussion with Mr Chapman in the staffroom. He mentioned that he had been to the gym and placed 3 X 20kg plates on each side of the barbell and added 2 X 5kg to the 20kg bar. I immediately went into my maths calculation mode and worked it out in my head. Numeracy was also the main focus during literacy and numeracy week.

Research shows that a child’s early experiences influence their long term outcomes and life choices. We need to recognise the important role families and early childhood educators play in children’s education. The resource materials presented below aim to support the engagement of children with everyday mathematics.

Requests for 2017
Many parents at this time of year are requesting their child or children be placed in a particular friendship group and with particular teachers for the following year. If you feel you need to make a request for friendship groups I ask that you keep letters brief and to the point. I am asking that parents not make requests for teachers. Please leave requests at the office in an envelope before Thursday 20th October. No requests will be accepted after this date.
**Monday—Make collections**
- Collect objects from the outdoors, like stones, leaves or twigs
- Sort them into groups and count how many items are in each group
- How many items are there in your favourite collection?

**Tuesday—Try measuring**
- Explore ways of measuring using sticks, foot prints or hand lengths
- Measure the height of people in your family
- Who is the tallest? Who is the shortest?

**Wednesday—Work out ways to measure ingredients for a recipe**
- Explore ways of measuring using a cup, a jug, a teaspoon and a tablespoon
- If you have kitchen scales weigh different foods such as a packet of flour, a bag of rice or some vegetables
- Put the things you have weighed in order from lightest to heaviest.

**Thursday—Think of ways of moving with maths outdoors**
- Find ways to balance your weight with a friend on the see-saw
- How many steps does it take to get from the park bench to the slide?
- What other maths games can you play in the playground?

**Friday—Find patterns**
- Try following a pattern someone else has started and continue the pattern on your own
- Make a pattern using pebbles, pegs or pieces of coloured paper
- What patterns can you see around you?

**Saturday—Stack building blocks**
- Build a tower as high as you can
- Can you build a tower that is taller than you are?
- What other structures can you make with building blocks?

**Sunday—Seek out shapes**
- Start and finish a jigsaw puzzle
- Find four or more different shapes in your house
- Draw some of the shapes you can see inside your house.

Please enjoy a well-deserved spring break with your families. Stay safe if travelling and enjoy every moment of precious time together. I look forward to seeing everyone smiling on day 1 of Term 4 for what I’m sure will be a brilliant Finish to the 2016 School year.

Kind Regards,
Jason McBean, Principal
Assistant Principal’s Report

Musical.ly

As a parent/carer it can be almost impossible to be aware of all the apps and sites that kids are on. As soon as you are on top of one, a new one is released. It is not so much the name of the app (some are very misleading) but what the app actually does that a parent should be concerned with. By knowing how an app works and what it does will go a long way to helping you make an informed decision about whether or not to let your child use it.

Don’t be fooled with the hollow cry of, ‘But everyone else has it’, because I can assure you they don’t. Much like pester power at the supermarket, some apps will get under your skin before you know it. If an app works on what I like to call the ‘lice concept’ – infest one child and get the rest.

So to the latest app to hit our students is: Musical.ly. On the surface it seems to be a fun, karaoke type app and if you read the description on the iTunes store it will tell you that you can create amazing videos to impress your friends, in other words, a popularity contest where the number of ‘likes’ equals being popular.

Here are some other things for you to consider.

The warnings on the side bar of the iTunes store state the app has:
- Infrequent/Mild Profanity or Crude Humour
- Infrequent/Mild Sexual Content and Nudity
- Infrequent/Mild Mature/Suggestive Themes
- Infrequent/Mild Cartoon or Fantasy Violence
- Infrequent/Mild Alcohol, Tobacco, or Drug Use or References

None of these topics are suitable for primary school aged students.

If you read the Terms and Conditions of Use (T & C) you will also find that a person must be over the age of 13 years to set up an account and that a person between ages of 13yrs and 18yrs must have parental permission.

Here are some things that I think you should consider prior to allowing your child to set up an account on Musical.ly.
- 18+ content in the songs lyrics. Swearing and adult concepts in the provided music. Some song lyrics are clearly inappropriate for children and most adults don’t hear the words anyway.
Musical.ly users can search for other users to view or follow near their own location/city (uses GPS technology).

User generated videos can be viewed and shared onto other social media and messaging apps increasing exposure. You lose control of the clip.

Public comments on Musical.ly, which can be nasty.

Friends commenting that you have ‘ruined’ their favourite song and bullying in real life as a result.

Users can publicise their messenger usernames or social media profiles on their Musical.ly profile.

Kids uploading content taken in the school grounds before school starts clearly identifying student and school via GPS and/or uniform. Cybersafety 101 is about NOT sharing personal information.

Anyone is able to watch the videos of your child, take them, and store them for future viewing pleasure.

At Laurimar Primary School all students and parents have signed a ‘iPad Users Agreement’ outlining the rules and regulations for the iPad program. One of those conditions is all apps must be age appropriate.

Technology is here to stay and in a few weeks or months there will be another new app to acquaint your self with. Don’t be afraid, knowledge is power so be involved in what your child does online. Keep the lines of communication open and honest and remember, there are other parents out there that say no. You are not alone. Don’t be afraid to sit down with your child and check it out. Children are usually reasonable when there is validity behind a decision. Stay strong and remember your child’s safety is your responsibility both on and off line.

If you require any further information or would like more information about apps or the iPad program please feel free to contact me.

Justine Convery
Acting Assistant Principal
Acknowledging difference, embracing and respecting diversity

Laurimar Primary School is committed to acknowledging difference and celebrating the diversity of our school community. We believe our school community is exceptionally welcoming, tolerant and accepting of difference. These are topics that need to be continually reinforced with our students. The school will again be participating in the national Day for Daniel on Friday October 28th and our key themes for this year’s day will be:

- Celebration of difference, diversity and tolerance
- Anti-bullying
- Cyber-safety

As we head into term four it is worth discussing with your children the following questions:

- How welcome in your games (football, basketball, tiggy, other games) do children who come from diverse backgrounds (families from different parts of the world, with different belief systems, etc.) feel?
- How well do you accommodate children with different abilities in your games?

School Uniform

Term 3 has been one of our most successful terms ever for uniform compliance. All students, parents, staff members, families and members of the school community are to be congratulated on their support for our uniform policy.

However, at the end of this term a trend has appeared that is of concern. A number of students have been coming to school with footwear that does not comply with our policy. Please make note of this part of our policy:

*It is preferred that black school shoes be worn. For safety reasons, all shoes must be fully enclosed. Runners are required for Physical Education and Sport classes. These should be predominately black or white with no bright fluro colours visible. Shoelaces should match shoe colours.*

Teachers and parents must continue to be vigilant to ensure that all of our students come to school representing Laurimar Primary School with the highest levels of pride in our school and self-respect. Please discuss with your child the value of wearing uniform and complying with our school community’s expectations. Our teachers will continue to send any students not correctly attired to the office where they will speak with a member of the Principal class team and be issued with an *Out of Uniform Pass*. This is a significant consequence and repeated *Uniform Passes* will lead to further consequences.

David Williams, Assistant Principal
On the 10th and 11th of September the Doreen Relay for Life took place at our very own school oval. The event started at 12.45pm on Saturday and concluded at 10.00am on Sunday. Despite the rain and chilly conditions many teams participated including some of the Laurimar Primary School teachers and many families in our community. More than 61 thousand dollars was raised from the Doreen Relay for Life event which supports the important work done by the Cancer Council. This is an incredible amount of money to have raised and an amazing effort from all involved. A big congratulations to those dedicated committee members which included parents within our school for their hard work and the event would not have been possible without your passion and enthusiasm in the lead up and throughout the relay.
This week marks our final week learning about RESILIENCE in our SEL classes!
Just to refresh your memory resilience means that when faced with a difficult or challenging situation (or person) being able to:

- Stay calm, keeping your feelings at a manageable level,
- Behave in a helpful, rather than an unhelpful, way when you find yourself getting upset (angry, down or worried),
- Calm down again after getting upset in a reasonable period of time, and
- Bounce back to work or to play!

Ask your child/ren about the Duck and Sponge experiment…which one shows resilience and how?
And here is the Mule Story of Resilience…can you make like the mule and *Shake It Off and Step Up* next time you find yourself down the proverbial well??

### THE MULE STORY

A parable is told of a farmer who owned an old mule. One day the mule fell into the farmer’s well. The farmer heard the mule braying or whatever mules do when they fall into wells.

After carefully assessing the situation, the farmer sympathised with the mule but decided that neither the mule nor the well was worth the trouble of saving.

Instead he called his neighbours together and told them what had happened and asked them to help him haul dirt, to bury the old mule in the well and put him out of his misery. At first the old mule was hysterical! He could hardly believe what was happening!

But, as the farmer and his neighbours continued shovelling and the dirt hit the mule’s back, a thought struck him!

It suddenly dawned on him that every time a shovel load of dirt landed on his back he should shake it off and step up!

This he did, shovel load after shovel load. “*Shake it off and step up…shake it off and step up…shake it off and step up!*” he repeated to himself over and over again.

No matter how painful the blows, or how distressing the situation seemed, the old mule fought panic and just kept right on shaking it off and stepping up!

And guess what??

It wasn’t long before the old mule, battered and exhausted, stepped triumphantly over the wall of that well!

What seemed like it would bury him, actually blessed him!

And all because of the positive way in which he handled his adversity!

*THE END!*
Payments by QKR

Laurimar Primary School is providing a more convenient way for parents and guardians to make various payments to the school. Qkr! (pronounced ‘quicker’) is a mobile payments app which enables consumers to order and pay for goods & services directly from their smart device. Qkr accepts all major credit and debit cards accepted by the school (Visa and MasterCard) and you can register more than one card within the app. The Qkr app is available from the Apple App Store and Google Play. If using an iPad you can download the iPhone version of Qkr. You can download and register for Qkr now and start making payments right away.

The app delivers real efficiencies for school office staff as well as convenience for parents, so we are hoping that Qkr will become the preferred payment method for all payments by families to our school. Qkr is provided by MasterCard so you know your payments are secure. No information will be stored on your phone. Registration details and card information are saved securely on the MasterCard network.

Download the Qkr! App on your Android, iPhone or iPad device.

1. Select your country of residence as 'Australia' and follow the steps to register.

2. Search for LAURIMAR PRIMARY SCHOOL

New features keep being added to Qkr! But what this also means is that you need to ensure that your phone software is kept up to date in order to have the new feature rich versions of Qkr working correctly.

How do I add or update a photo of my child on the Qkr app?

If you wish to add a photo of your child or if you have previously added a photo of your child and now wish to replace it with a different photo:

1. Sign into your Qkr!™ account and select any school menu
2. You will see a screen displaying your child’s details and asking you to “Select a Child”. Tap on the icon on the top right of your screen (three vertical dots on Android device or a box with an arrow on Apple devices)
3. Tap ‘Manage Children’
4. Tap the child whose details you wish to edit
5. You can either select an existing photo from the gallery then tap DONE, or take a photo on your phone then tap DONE.
6. Tap the ‘Done’ button (Apple device) or ‘tick’ icon (Android device) on the top right of your screen to save changes.
Bike Education

As part of our Physical Education program Bike Education will commence during Week 1 of Term 4. Bike Ed is a significant part of our program as we endeavour to teach the student’s about all aspects of riding safely. All students will participate in Bike Education which is held during their normal Physical Education classes. Please conduct a safety check of your child’s bike prior to the beginning of Term 4, to ensure they can participate in the classes.

Please check the handlebars, tyres, seat height, helmet, handlebars and pedals. A note will be sent home with further information.

SCOUTS

1st Doreen Scout Group is proud to announce that the Joey and Cub sections are moving to a new larger and much improved hall from the 7th September. The hall at 25 Hazel Glen Drive will allow the Group to expand and offer a fantastic range of programs for children from 6 to 11. This follows on from the move of our Scout section early this year to Shotters Road, a move that saw the section go from 5 Scouts to 19!

We are very excited at these changes and would love to see some new members come down to try Scouting out… anyone can try for three weeks free of charge! We are also seeking adult volunteers as well, so call if you have some time to give!

1st Doreen is very pleased with its association with Laurimar Primary School and see LPS as one of the most important partners for Scouting in our area, this is why Mr McBean was decorated with the State Scarf a few weeks ago.

To find out more about Scouting and the adventure it can offer with camping, badges, outdoor trips and cooking challenges… call the Group Leader – Malcolm Noyle on 0499 549 337…
With Term 4 comes a revised Spring/Summer menu, some of the new items that will be available are:

- Fresh Fruit & yoghurt cups
- Muesli
- Fruit & Yoghurt cups
- Chicken & Beef Burgers, we are also adding Gluten free bread & Wraps

Watch out for the new menu coming home in the first week of term 4 and the changes will be reflected on MunchMonitor.

We hope you all have a great break and see you back in Term 4.

Victorian State Schools Spectacular

We are proud and excited to have had 20 of our students participate in the 2016 Victorian State Schools Spectacular: The Elements.

This year’s Spectacular was held at Hisense Arena on Saturday 10 September, with two shows at 1pm and 6:30pm. The three-hour Spectacular was filmed and will be broadcast by Channel 7 on the 3rd of December 2016.

The show provided a fun, family entertainment experience with 20 of our very own Laurimar Primary School students singing in the mass choir.

Congratulations to the 20 LPS mass choir vocalists and to Codi Culph who was one of three primary school students in Victoria to be selected to sing in the School Spectacular Ensemble choir with high school students.

This program, run by the Department of Education and Training, helped our students to develop performance skills, discipline, perseverance, cooperation and confidence under the training of industry professionals.

Both Sarah Walsh and myself, Jayde Keenan, had a fabulous time with the students during this unique experience.
CHAMPIONS ARE MADE, NOT BORN.
